

Shared Responsibility
bringing competences and employability together

Newsletter #4 — 2018

One more time!

From 2nd to 4th of July 2018, the partners of the project "Shared Responsibility" met again, this time in Valencia (Spain), for the fourth meeting of the project. During this two days of evaluation, the partners started the analysis of all the results, country by country.

They started to compare what happened in each country and trying to make the common conclusions of the project, including the corrections for the future. Trying to give solutions for the problems that they found in all the process.

Conclusions point... PILOT

The project team managers had a meeting to evaluate how was this part of the project.

It was a short and intensive meeting where they could see the real results and also the real problems that could appear during the development of the project.

Firstly they started to read their own results in each country and to know what were the needs to improve respect the project in the different countries. In one hand, they could find some problems that could improve in a future of the project, like in Netherlands for example, educators told that they need time to integrate the Badges system to the educational system, as other countries like Spain need too. For some participants, to try this, it was an extra work for them, because of the period when they did it, almost the end of the course, when they were full of activities. In Germany for example the participants said that some Badges are difficult to understand for them. But on the other hand, unemployed citizens and immigrants in different countries like Italy or Germany they see the Badges competences very interesting.

In conclusion, that was a very gratifying meeting because of all the real results, but also, intensive and hard, they had to give new solutions to the new problems and try to adapt and improve some parts of the project for the future. Follow up the ideas also discussed and very soon you will find out more about the results.
